KENYA NATIONAL ANTHEM

1. E Mungu nguvu yetu
ilete baraka kwetu
Haki iwe ngao na mlinzi
Natukae na undugu
Amani na uhuru
raha tupate na ustawi
2. Amkeni ndugu zetu
Tufanye sote bidii
Nasi tujitoe kwa nguvu
Nchi yetu ya Kenya
Tunayoipenda
Tuwetayari Kuilinda
3. Natujenge taifa letu
Ee ndio wajibu wetu
Kenya istahili heshima
Tuungane mikono
Pamoja kazini
Kila siku tuwe na shukrani
1. O God of all creation
Bless this our land and nation
Justice be our shield and defender
May we dwell in unity
Peace and liberty
Plenty be found within our borders
2. Let one and all arise
With hearts both strong and true
Service be our earnest endeavour
And our Homeland of Kenya
Heritage of splendour
Firm may we stand to defend
3. Let all with one accord
in common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving

EAST AFRICA ANTHEM

1. Ee Mungu twaomba uilinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu.

Jumuiya Yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu.
2. Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Na tulinde Uhuru na Amani
Mila zetu na desturi zetu.
3. Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora.
1. Oh God we pray for the preservation
of the East African Community
Enable us to live in peace
May we fulfill our objectives

Chorus
***We should protect/guard our
community
We should be committed and
Stand strong
Our unity is our anchor
Long live our community***
2. Patriotism and togetherness
Be the pillars of our unity
May we guard our independence
And peace
Our culture and traditions
3. Industries and farms
We should work together
We should work hard
We should build a better community

1ST GRADUATION CEREMONY, MONDAY, 14TH MARCH, 2022

MASTER OF CEREMONY: *Ms. Jennipher Obuya – Deputy Principal Administration*
Mr. Owiti Alex – Deputy Registrar

ORDER OF EVENTS

TIME	ACTIVITY
8:00 AM	All Graduands and Guests be seated
8:00 AM - 8:30 AM	Entertainment
8:30 AM - 10:30 AM	Arrival of Chief Guest <ul style="list-style-type: none"> • Commissioning of the New Building & Civil Engineering Block • Signing Visitor's book • Planting of commemorative trees • Exhibitions

11:00 AM – 12:00 noon	Speeches <ul style="list-style-type: none"> · Chairperson Trainees' Council · Principal · Chairperson Siala TTI BOG · Regional Director TVET · County Commissioner · Director of TVET · Chief Guest - Dr. Margaret Mwakima, PhD
11:30 AM	Deputy Principal Academics calls upon the HODs for presentation of Diplomas & Certificates
12:00 noon	The Principal calls upon the graduands to be up standing and invites the PS, VTT to award Diplomas and Certificates
12:15 PM - 12:20 PM	The PS, VTT awards the Diplomas and Certificates
12:20 PM - 12:30 PM	Presentation of Awards
12:30 PM – 1:00 PM	Vote of Thanks Prayer
1:00 PM	The Principal dissolves the congregation: <ul style="list-style-type: none"> · National Anthem · Recessional March · The Chief Guest leads the recession march while the congregation remains standing · Guests leave at their own pleasure

Vision

A center of excellence in research and skills training commensurate with industry with industry and community demands.

Mission

To promote skills training in technical and vocational education training (TVET), research, science, technology and innovation commensurate with industry and community demands.

Core Values

- Integrity
- Transparency & Accountability
- Team Work
- Fairness
- Sustainability
- Innovation
- Professionalism
- National Cohesion
- Innovation

MESSAGE FROM CHIEF GUEST, DR. MARGARET MWAKIMA, PhD.

THE PRINCIPAL SECRETARY, STATE DEPARTMENT FOR VOCATIONAL & TECHNICAL TRAINING

It is my pleasure to preside over this auspicious occasion of the 1st graduation ceremony of Siala Technical Training Institute and commissioning of the GoK/AfDB Phase II project which I am honoured to grace today.

On behalf of the Ministry of Education I commend Siala Technical Training Institute's Board of Governors, Management, staff and trainees on this first graduation ceremony.

The graduation is a great achievement not only for the Institute but also to the Nation of Kenya at large. I therefore wish to congratulate the Board of Governors, the Principal, and the staff for the efforts made in passing the right Attitudes, Skills and Knowledge to the graduands.

To the graduands, the trainers have done their part in ensuring you have the right competencies and attitudes in your Trade areas, necessary for providing quality and excellent services in a fast changing industry. Go and put the competencies to use.

Technical and Vocation Education and Training Institutions are the channels through which youths

acquire skills for innovations and self-employment. Towards this, the Government has put in place measures to enhance technical capabilities acquisition among the youths in working towards the achievement of the big four agenda and the Kenya vision 2030.

The Ministry of Education has carried out massive TVET reforms which include establishment of TVET Curriculum Development Assessment and Certification Council (TVET CDACC), TVET Authority, Kenya National Qualification Authority which are all working towards providing the market with right competencies for self-employment or employment.

The key to economic prosperity of a Nation lies in its Education and Training system. Such a system should be able to provide high skilled manpower to enable the Nation compete favorably in the changing global market. This far, TVET has contributed largely to the economic growth through imparting the right competencies in the trainees.

It requires the efforts of all stakeholders towards making TVET an effective driver for the Country's economic and social development.

The Education sector has undertaken curriculum review and reforms with the view of having a competence based system to enhance acquisition of the right attitudes, skills and knowledge to by trainees. The Competency Based Education Training (CBET) is result based, Industry centered and also

involves the industry in all aspects of training and implementation. CBET has helped establish occupational Standards which can be measured, as well as link education and training to the skills needed by the Industry. This will meet industrial and business demands and help in bridging the skills gap alongside addressing youth unemployment.

Technical Education has been made accessible to all schools leavers. This has been achieved by funding the construction of Technical Vocation Colleges in almost each constituency in the Country.

This far, Siala TTI was born through the sponsorship of the GOK and the AfDB. The Institute's infrastructural development is being implemented in phases. The Phase I was the Mechanical and Automotive Workshops and phase II is the Building and Civil Engineering complex which has been commissioned today.

Through the Government initiative to increase enrollment in TVET institutions, KUCCPS has been placing trainees to the TVET institutions, and the Government has been paying capitation of Ksh. 30,000/- per year for each trainee. The Government has also facilitated HELB to issue loans to needy trainees who apply and by so doing trainee retention is achieved.

I am also delighted to note that there has been infrastructural development in this Institute. This means that the Board chairman and his team are working around the

clock to ensure positive transformation. Such developments can only be witnessed if the institute will continue to partner with Non-governmental Organizations, Ministries, County Government and the community at large.

I take this opportunity to thank the Principal, Ms. Asha Bakari for profound leadership, commitment and integrity in ensuring that the Institute progresses in the right direction. The commitment, team work and integrity of the staff have also made it possible to have this graduands.

Let me also thank all the parents, guardians and sponsors for their unwavering support to the graduands to ensure they complete their training.

I also commend the National Government for allocating funds to support the trainees, the County Governments and Constituencies also award needy trainees' bursaries to ensure they achieve their training dreams. I also thank the various industries for allowing our trainees to practice the knowledge and skills acquired during their training through Industrial attachment.

Once again I congratulate the graduands for this great achievement.

I wish you all the best as you endeavor to serve and build the great Nation of Kenya. God bless you all.

**THANK YOU VERY MUCH
GOD BLESS SIALA TTI AND GOD
BLESS KENYA!!**

MESSAGE FROM B.O.G CHAIRMAN, MR. GEORGE PIUS OGUTU

On behalf of the Board of Governors of Siala TTI, I congratulate all the graduands for having worked hard to enable this great occasion of the 1st graduation Ceremony to come true. Indeed, this is a joyous occasion to all of us, more so, to the graduands, their parents, guardians and sponsors who made sacrifices to ensure that they complete their training successfully.

I take this opportunity to thank the Principal Secretary (PS) for accepting to officiate this graduation ceremony, alongside commissioning of the just completed GoK/AfDB funded Building and Civil Engineering Complex.

At Siala TTI, it has always been our endeavor to give to the market and society all-rounded graduates and it is our firm belief that the 438 graduands we are releasing today

will uplift the name of Siala TTI in the various industries they'll be called upon to offer their artistry, artisanship, manpower, labour, professionalism and skills.

As a Board, we are committed in ensuring that we produce graduates who have the right Attitudes, Skills and Knowledge (ASK). We have also continued to stay focused on our mandated responsibilities as per the TVET Act 2013 and we actualize these responsibilities through strategic planning and performance contract engagements. The Board has also focused on ensuring prudent use of financial resources by giving the oversight function. Our current strategic direction has been clearly laid out in our 2022-2027 strategic plan. One of the critical issues set out in the current strategic plan is the upgrading of Siala TTI to a National Polytechnic. As a Board, we are focused to make this dream come true by ensuring increase in trainee enrolment, expansion of the physical infrastructure and the human resource capacity & capability. The Board is committed to uphold team spirit and a focused leadership to achieve the Institute's vision.

Despite the many strides the Institute has made in the last five (5) years when it formally began its operations, the Institute still experiences some challenges especially on the drainage of the area and some infrastructural

inadequacies. The poor drainage has caused some cracks and sagging of a floor slab on the Phase I GoK/AfDB project that threaten the structural strength of the building. Nevertheless, I applaud the support from the Ministry and other development partners, which has enabled the Institute realize gradual and progressive human capacity & capability, and physical development. I sincerely applaud the first Principal and first BOG of Siala TTI for the firm foundations they gave to ensure the Institute sets off. I also wish to recognize and honor the contribution of Hon. Dalmas Otieno for having been the driving force behind the establishment of this Institute.

Most importantly, I thank the Government for helping to bridge the gap between the levels of skills imparted to the trainees and the requirements of the labour market by providing Siala TTI with Mechanical and Automotive Engineering Equipment and machinery. This has not only enhanced acquisition of hands on skills, but also enabled Siala TTI to currently set up a production unit in the department, alongside putting in place strategies to launch production units in two more departments.

We are still looking forward for further support to equip and furnish the Building and Civil Engineering Complex that has been

commissioned today, construct a library, construct the Phase III GoK/AfDB project alongside establishing a long-term solution to the water drainage challenge on Institute site.

As a Board, we laud the administration led by the Principal, for implementing duly approved Ministry and Board policies, we appreciate the efforts of the training and non-training staff for their strong team spirit and diligence at work. I finally can't fail to recognize the unreserved support from parents and guardians.

To our graduands, you have been imparted with the skills you need to create jobs out there. Therefore go and apply the knowledge and skills you have acquired through training to help spur this country towards not only achieving the Kenya Vision 2030 but also achieving the African Agenda 2063

'The Africa we want.'

God bless you, God bless Siala TTI

MESSAGE FROM PRINCIPAL, MS. ASHA BAKARI

On behalf of the Siala Technical Training Institute fraternity, I am most delighted to welcome you to witness and celebrate with us our 1st graduation ceremony and commissioning of the Phase II GOK/AfDB project.

On this 14th March 2022, we are witnessing the graduation of 438 graduands, the first group to be hosted for graduation since the inception of the Institute five years ago.

We applaud the graduands for their hard work and having overcome a package of challenges during training to emerge successful. I have no doubt that the competent, rigorous and professional training they have received will make them stand out high and firmly serve with diligence and integrity.

I also remind our graduands that obtaining a Diploma or Certificate is just a spring board to a new journey in life. As you go out there, what you do with your training or certificate will either make or break you.

To our Guest of Honour, Madam PS, within the last 1 year, the Institute has achieved the following milestones:

- (i) Increased enrolment from 810 to 2100 trainees
- (ii) Increased the number of courses offered from 30 to 40 currently, including the CBET courses.
- (iii) Increased the staff establishment from 78 to 109 (83 trainers and 26 non training staff)
- (iv) Launched the ISO 9001:2015 to check on the quality of services offered
- (v) Formulated the 2022/2027 Strategic Plan alongside other policies
- (vi) Improved the physical infrastructure:
 - a) Completed the CDF funded dining hall which had stalled, courtesy of the NG-CDF Rongo Sub-County.

- b) Constructed an Incinerator for proper waste management
- c) Completed Phase II of GoK/AfDB project which has been officially commissioned today. This has provided more space for training easing pressure on the existing training rooms.
- d) Acquired a 16-seater van, GoK/AfDB funded.
- e) Levelled the grounds within the Institute compound and play ground for sporting activities. This was aimed at providing an enabling environment to the trainees to pursue their talents
- f) Constructed three training rooms internally funded.

Other Projects Under way to be completed before the end of the financial year include:

- i. Installation of CCTV
- ii. Installation of an ERP system
- iii. Partial peripheral fencing
- iv. Valuation of Institute land and Phase I GoK/AfDB funded equipment

The Institute launched CBET programmes in three Academic Departments in January 2021. This was aimed at enabling the institute to stay abreast with the current trend of promoting hands – on education and training. The first CBET trainees were assessed in December 2021, the second lot will be assessed this year in March. More CBET programs will be launched later in the year in the other Academic Departments.

On partnerships, the Institute has a working engagement with 3 Organizations currently for partnership in training to ensure training is wholesomely relevant to the current Industry needs. Notably, the Institute is working in partnership with Meru University and a consortium of universities in Netherlands in a project dubbed EPIVOT (Enhancing Partnership for Industry –led Vocational Education and Training). This enabled the setting up of a greenhouse and launching of hands on Agricultural programmes. We are also setting up partnership with a Numerical firm with intention of enhancing training and production in the Mechanical Engineering section.

The Institute is also bracing up to progressively launch a Driving school in the next two financial years.

To our Guest of Honour, Madam PS, I take this moment to sincerely appreciate

- Parents and guardians for supporting the trainees training
- The National Government for Capitation, and NG-CDF Rongo Constituency for infrastructural support
- National Government and NG-CDF for the bursary award schemes; Higher Education Loans Board (HELB) and other stakeholders for financially supporting the trainees
- The trainers and non-teaching staff, trainees and other

stakeholders for the unity and support they have given the institute this far

- The Board of Governors for their strategic management of the Institute which has made it possible for the Institute to achieve tremendous improvements within a short time.

To the graduands; we have imparted in you the right attitude, skills and knowledge required for self-employment, the job market; and to effectively fit in the society at large. Remember, the sky is not the limit to your progress. Your attitude is the limit. ***Congratulations.***

**MESSAGE FROM TRAINEES' COUNCIL CHAIRPERSON, MR. MBOYA . THOMAS**

The permanent secretary ministry of education science and technology
Dr. Margaret Mwakima

Principal Siala Technical Training Institute Madam Asha Bakari

Deputies' administration Madam Jenipher odhiambo and Madam Leah Gor

Dean of the trainees Mr. Oloo Olwa

Registrar Mr. Alex owiti

Teaching and non-teaching staffs

The councils

Distinguished guests

Guardians and Trainees

Ladies and Gentlemen

Good morning

It's with much delight that I welcome you on behalf of SIALA TECHNICAL TRAINING INSTITUTE council, to our first graduation ceremony. In the same breath, I congratulate our grandaunts for successfully completing their courses. This occasion marks a great day in initiation of the college grandaunts as they receive their hard and reward and are ushered into the world to be forces of development nationally and internationally. The day also is a great day to celebrate with your families and friends, a day you've been waiting for since you entered SIALA TECHNICAL INSTITUTE. For some of you, it is waiting to get out of school and get on with life but for all of you as you return the gowns you're wearing today and take your tassels and diplomas home, remember this: The tassels and diplomas receive today is insurance policy with a premium paid in full by your hard work over the past 1,2 or 3 years. The value of that policy depends on how much efforts you put into your education and what you do with it as you go on. Use it, take advantage of what it offers.

Grandaunts' I believe you all recall

your week of orientation that begun on lecture theater where the dean of trainees welcomed everyone and his team. Today the team that welcomed you is witnessing you departing from this institute. Not forgetting the tedious oral and written interviews on different courses to undertake but finally you got to be admitted to STTI. Besides I won't forget the school class timetable that ensures that you got to attend classes in all of the buildings in the span of a day. Confusing a class in LR4 (LECTURE ROOM 4) for a class in MER1 (MECHANICAL ENGINEERING ROOM 1) meant you, you had to cross the rivers and muddy roads \paths to get to school and attend to classes. I also believe that we will all be in agreement that STTI not only provides excellent service and education but also exposed all of us to co-curricular activities that helped us discover our passions and purpose in life. It's through the co-curricular that the former councils chairpersons namely Mr Nyapara, Mr Sylvester Mr Nyagay, Mr Ramadhan, Mr Benedict, Mr HESBON, Ms Hellen and currently I Thomas Mboya discovered their leadership virtues/passions.

Ladies and gentlemen

The trainees population now stands at 1500 laying a great emphasis on fostering research, innovation and technology development. The college is implementing different strategic plans that aims at addressing the long term development of the college as it respond to the political, legal and economic changes in the medium-term nationally and globally. This also ascertain that the college contribute to niche areas of vision 2030 and beyond, and also contribute towards realization of our school goals, missions and visions. Just but to add

we continue to excel in more ways than one which is clear sign of growth to a premier college excelling in quality education, research and technology transfer for national development where in 2019 our students featured with amazing innovations developed from right here in our institution. this is an indicator that we are indeed providing academically stimulating, culturally diverse and quality learning environment that fosters research ,innovations and technology development towards producing relevant technical and managerial human resource and leaders to contribute to attainment of national development goals as our mission states .moreover our college continues to grow her mix of academic programme spread over Engineering, ICT, Business studies ,Food Technology, Applied science i.e. Agriculture and fashion and design.

Ladies and gentlemen

I wish to thank the government through the ministry of education for

their support towards the growth of institution and the financial support to the students through the higher education loan board ,it is my hope that we will continue working together for the betterment of our nation through quality education. My gratitude goes to the college management board for their dedication in running this institution ,it's through the board that most of the mentioned above ,not limited to have been made possible also wish to appreciate the whole STTI fraternity and stakeholder for their cooperation and support throughout the years. To the grandaunts take the those experience you've gained her ,keep close to the friends you've made her in school and do well wherever you go and whatever you do remember you've earned your passport, use it well, congratulations again to each of you as may you all succeed in the years ahead as you face the world

God bless you,
God bless STTI
Thank you

SIALA TECHNICAL TRAINING INSTITUTE HISTORICAL BACKGROUND

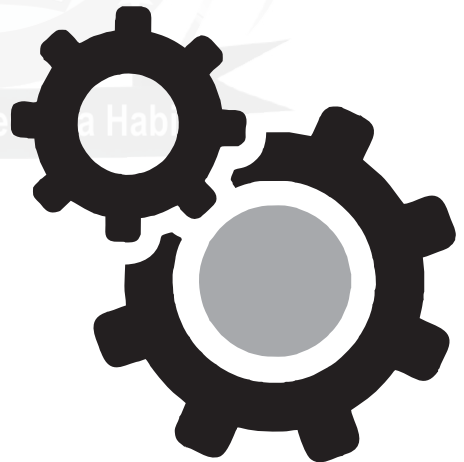

Siala Technical Training Institute was established in the year 2015 under the sponsorship of the African Development Bank (ADB) in conjunction with the Government of Kenya. The institute came as a replacement to Moi Institute of Technology (MIT) which was converted to Rongo University. The land where the Institute is situated was initially owned by the community that surrendered it to the Government of Kenya for any social project.

The Institute is located in Migori county, along Rongo- Homabay road approximately two Kilometres from Rongo town. It boasts of very expansive arable land suitable for agricultural undertakings. The Institute is commonly referred as "Mesopotamia" because of its location between two adjacent rivers - Misadhi and Nyandito.

The Institute became operational in September 2016 after admitting 354 trainee.

The Institute is an Examinations centre for Kenya National Examination Council (KNEC) and Kenya Accountants and Secretaries National Examination Board (KASNEB), TVET- CDACC and NITA.

Siala TTI is established to offer the TVET curriculum course up-to Diploma level or any other level as the Cabinet Secretary may specify. The Institute shall, therefore not mount any programs of study other than those approved by the TVET Authority.

CREDIT

1. OCHIENG Obondo Dancan
2. OLOO Raymond Onyango

PASS

3. OMONDI Charles Ogwe

ACADEMIC

MECHANICAL ENGINEERING DEPARTMENT

Courses	Requirement	Duration	Exam
Diploma in Mechanical Engineering (Prod. option)	KCSE (C- & Above)	3 Years	KNEC
Diploma in Automotive Engineering	KCSE (C- & Above)	3 years	KNEC
Craft Certificate in Mechanical Engineering (Production Option)	KCSE (D & Above)	2 Years	KNEC
Craft Certificate in Automotive Engineering	KCSE (D & Above)	2 Years	KNEC
Craft Certificate in Welding & Fabrication	KCSE (D & Above)	2 Years	KNEC
Artisan in Automotive Engineering	KCSE (E & Above)	1 Year	KNEC
Mechanical Technician Level 6 (Production Option)	KCSE (C- & Above)	3 Years	TVET-CDACC

ELECTRICAL & ELECTRONICS ENGINEERING

Electrician Installation Level 3	KCSE (E & Above)	1 Year	TVET-CDACC
Diploma in Electrical Engineering (Power opt)	KCSE (C- & Above)	3 Years	KNEC
Diploma in Electrical Engineering (Telecom opt)	KCSE (C- & Above)	3 Years	KNEC
Craft Cert. in Electrical Engineering (Power Opt)	KCSE (D & Above)	2 Years	KNEC
Craft Cert. in Electrical Engineering (Telecom opt)	KCSE (D & Above)	2 Years	KNEC
Artisan in Electrical Installation	KCSE (E & Above)	1 Year	KNEC

BUILDING & CIVIL ENGINEERING DEPARTMENT

Artisan in Masonry	KCSE(E & above)	1 Years	KNEC
Artisan in Plumbing	KCSE(E & above)	1 Years	KNEC
Diploma in Building Technology	KCSE(C- & above)	3 Years	KNEC
Diploma in Civil Eng.	KCSE(C- & above)	3 Years	KNEC
Craft Certificate in Building Technology	KCSE(D & above)	2 Years	KNEC

INFORMATION COMMUNICATION TECHNOLOGY DEPARTMENT

ICT Technician Level 5
Diploma in ICT
Craft Cert. in ICT
Computer packages
Graphics Design

BUSINESS MANAGEMENT DEPARTMENT

Front Office Operator Level 3
Diploma in Business Management
Diploma in Supply Chain Management
Diploma in Human Resource Management
Diploma in Social Work & Community Development
Craft Certificate in Business Management
Craft Certificate in Supply Chain Mgt
Craft Certificate in Social Work & Community Development
Artisan Certificate in Store Keeping
Artisan in Secretarial Studies
Diploma in Accountancy
